

**FINAL REFLECTION ON
TRAINING COURSE ON TEACHING FOR ACTIVE LEARNING (TAL-4)
BY
MD. MASHFIQUL ISLAM**

To attend the Training Course on Teaching for Active Learning (TAL-4) is truly a life changing experience for me. The topics covered in this training program are in fact very necessary for a person who wishes to consider teaching as a passion more than a profession. The topics covered in this magnificent training are as follows:

1. Social capital and its application for classroom
2. Pedagogy and Andagogy Teaching method
3. Multiple intelligent
4. PAC theory
5. Ego states
6. Effective Habits and Behaviors of High Performing Teachers
7. Bloom's Taxonomy
8. Learning objectives and learning outcomes
9. Teaching portfolio preparation and teaching philosophy
10. ICT in teaching
11. Managing disruptive behavior in class rooms
12. Structure of Syllabus and Course Curricular
13. Rubric for assessment
14. Behavioral ethics for teaching and learning etc.

The training program was brilliantly planned and also conducted with a very professional way. There existed an ice breaking session which made a good start of the training along with introduction to the learning partner. The presenters were fabulant speakers and also well managed the classes. They were possessed deep knowledge and understanding on respective topics and at the same time capable of making the participants attentive all the time. The exercises and tasks, debate on pedagogy and andragogy along with different songs were really very refreshing. The presence of the founder members of fLTR at the certificate giving ceremony and receiving certificates from them was a wonderful experience for me. Above all the presence of Professor Dr. Golam Samdani Fakir with his radiant discussions and explanations of different issues, made the training more enjoyable. To this end, what I have learnt in this training will surely reflect on my teaching and would help me to be a great teacher.
